

Service Rules for Certain Chapter 13 Post-Confirmation Modifications

In addition to complying with the [Local Post-Confirmation Modification Procedures and Forms](#), Debtors proposing plan modifications which would impair or otherwise substantially affect the rights of holders of secured claims must also serve a copy of the proposed modification and modification notice on the secured creditor under Rule 7004 and include a certificate of service with the filed modification.

Examples of modifications impairing the rights of holders of secured claims include, without limitation, surrender of collateral securing the claim and reduction of the amount to be distributed by the trustee on account of the claim as a result of post-confirmation developments.
